

# OEM Specialist for Raman Spectroscopy

The world's first multi-wave  
(1064nm, 785nm, 532nm) Raman  
Chemical & Biological Analyzers

The world's only Dual-Band Handheld  
Raman Chemical & Biological Analyzers

Dual-Band Transportable  
Desktop Raman Spectrometer  
The First Dual Portable Band

The World's First and Only Nano  
Wearable Raman Chemical &  
Biological Analyzers

**BaySpec is the Leader  
In Miniaturized  
Raman spectrometers!**

# Our Capabilities Outshine the Rest!!

Let BaySpec develop your customized solution from Concept, Design to Manufacturing!!

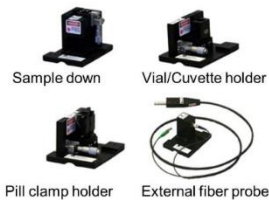

These are just a few examples of our OEM Raman Instruments Built for Past Customer Projects

BaySpec manufactures and designs gratings, OEM spectrometers and imaging spectrographs for your desired specifications.

- Vertical Integration
- Customized solutions
- Best performance/price/SWaP

Quick-change sample holders

Agility dual-band Raman analyzer

Raman Microscope with four excitation Raman wavelengths  
**Yes FOUR!!**
